

Shed activities

We do what our members need. Our shed offers traditional activities such as woodwork, metalwork and manual crafts however we also offer some unique points of difference which attract men who want to engage in a wider range of activities, which may not be offered in other men's sheds. Our draft program contains the following activities:

- Drop in chat groups
- Open mike afternoon
- Seniors' cabaret
- Walking and cycling groups
- Men's wellbeing programs
- Gardening
- Shed restoration
- Art and drawing

Your suggestions for activities will always be welcome and you may have the skills, knowledge and experience to lead such a group.

About our Shed:

The South Brisbane Men's Shed is a traditional Men's Shed providing men of all ages and all walks of life with a safe and welcoming environment to get together, make new friends and work on a project.

Whether you're interested in computers, gardening, restoring furniture, or just having a chat, we provide the opportunity to learn new skills, build relationships and be productive.

We enable men to become active in the community and develop a sense of health and wellbeing by fostering an atmosphere of mateship where men can talk about their feelings and emotions in a warm and friendly environment.

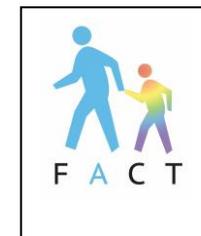

Special Interest Group:

The South Brisbane Men's Shed has a special interest of providing a facility that supports fathers, brothers, uncles, grandfathers, carers and male supporters of people with autism.

Having a child or family member with autism can be isolating at times. The South Brisbane Men's Shed offers male supporters of children with autism the opportunity to share their experiences and learn from each other, as well as other men from the community.
