

Supporting people experiencing  
learning differences

## ASSISTIVE TECHNOLOGY iPAD CONSULTATION SERVICE

for students, parents and educators

### What is Assistive Technology?

Assistive Technology (AT) is the hardware and software used by a student with learning differences which enables them to achieve their potential and beyond.

### Who benefits from Assistive Technology?

Speld QLD's AT service caters for students with learning differences from prep through to tertiary education. Individuals with learning differences such as dyslexia, dysgraphia, dyspraxia, memory difficulties, language disorders and auditory processing disorder can benefit greatly from the use of AT in their everyday lives. AT lightens the load for students with learning differences and those who support them.

### What is involved?

Speld QLD's AT iPad consultations are tailored to meet the particular needs of the client. Our consultations are face-to-face and up to three individuals may attend the consultation. AT consultations are held on-site at the Speld QLD Woolloongabba Office.

### What can I expect to find out an AT iPad Consultation?

Speld QLD's iPad AT Consultations are tailored to meet the particular needs of the client.

### Example Consultation:

- *Using the iPad as an Assistive Technology (AT) tool:* Learning how to alter iPad settings to make them user friendly. A demonstration of how best to use a series of apps to assist with the process of researching, note-taking, spelling, reading, writing and presenting written work.

### Cost:

\$99/hr (Speld QLD members only)

**To find out more or to make a booking please  
phone: 3391 7900 or email: [assistive@speld.org.au](mailto:assistive@speld.org.au)**

### Other Speld QLD AT services include:
